## WHY SHOULD YOU STUDY ABROAD?

- Fulfill major, minor and GEP requirements that count toward your degree.
- Distinguish yourself in the workplace with **global competencies**.
- Build independence, problem-solving skills and perspective to face the grand challenges of society.
- Explore a new language or culture with a diverse group of people.

## PLAN AHEAD

- Well prepared students typically start a year in advance.
- Attend the Study Abroad Fair, typically held in late September.
- Make an appointment to discuss plans with your academic advisor.

## HOW TO APPLY

- Attend a general advising session hosted by the Study Abroad Office.
- Visit [studyabroad.ncsu.edu](http://studyabroad.ncsu.edu) for information and resources on:
  - Available Programs
  - Transfer Credit Database
  - Scholarships & Financial Aid
  - International Internship Opportunities

“The University of Copenhagen offered many different classes that allowed me to stay on track for graduating, and the Study Abroad Coordinators were there to help with any questions I had! It was a wonderful, life-changing experience that I would do over again if I could!”

Megan Ketner  
University of Copenhagen

# FEATURED SEMESTER PROGRAMS

The following programs have been identified as best-fit programs for **Agricultural Business** students; however, students are welcome to participate in other programs.

## **AUSTRALIA** | University of Adelaide

An NC State strategic partner university that has a broad range of offerings, including agricultural business, animal science, horticultural science, viticultural science and oenology, food science and technology, soil and water science, and plant science. Adelaide is a cultural hub for arts, entertainment, landscapes, and friendly people. With added NC State support, it is perfect fit for students in the College of Agriculture and Life Sciences.

## **DENMARK** | University of Copenhagen

Students have the opportunity to take classes in agribusiness economics, agriculture and food policy, agro forestry, climate management, horticulture production, and environmental & natural resource economics.

## **GHANA** | University of Ghana - ISEP

The department of Agricultural Economics and Agribusiness at the UG offers agribusiness management, crop protection, environmental control, managerial and business economics, soil management, and more.

## **ITALY** | Lorenzo de Medici - Tuscania campus

Situated in the heart of Tuscany, students can choose from over 400 courses, all of which are taught in English, except for Italian language classes.

## **NEW ZEALAND** | Massey University - ISEP

Through the College of Sciences students have the opportunity to take classes in agri-commerce, agri-science, environmental management, and resource & environmental planning.

## **SCOTLAND** | University of Dundee

Through the College of Life Sciences and School of Accounting and Finance, students can take courses in biological sciences, international business, business law, economics, human resource management, and finance.

## **UNITED KINGDOM** | Harper Adams University

Located in Newport, Shropshire, England, Harper Adams University offers the ability to further ones degree while experiencing the beauty the UK has to offer.

## **UNITED KINGDOM** | University of Leeds

Leeds is a top university in the United Kingdom and is internationally acknowledged as a center of excellence in a range of disciplines. It offers numerous GEP classes as well as coursework that focus on agriculture, crop science, business economics, environment, international business, and labor and environmental economics.

# FEATURED SHORT TERM PROGRAMS

## **AUSTRALIA / NEW ZEALAND** | Sustaining Culture & Environment (Summer)

Discover natural history of parks, beaches & fjords with a focus on natural resources, protected areas, and sustainability. Reflect on challenges of protecting and conserving fragile environments while sustaining human societies. **Credit:** PRT 449, PRT 450.

## **CHINA** | Plant Resources, Ecology & Culture (Summer)

This course examines natural plant resources of Eastern Asia and explores Chinese culture and religions in eastern China.

## **COSTA RICA** | Sustainable Tropical Agriculture Production (Summer)

Learn about local agricultural practices, agri-tourism, and sustainable ways of life in Costa Rica. Participants will gain hands-on research practices and practical experience. **Credit:** CS 492 or CS 495/590.

## **CZECH REPUBLIC** | Prague Institute

The Prague Institute offers a chance to spend time in one of Europe's most beautiful cities. Many courses fulfill GEP requirements: Humanities, IDP, & Natural Sciences.

## **IRELAND** | Equine Industry (Summer)

Travel through Ireland to visit several equine facilities and learn about the racing industry firsthand. Participate in seminars and lectures at the University of Limerick's International Equine Institute. This program runs every other year on odd years. **Credit:** ANS 291.

## **IRELAND/UNITED KINGDOM** | Global Food Systems (Spring Break)

Expand understanding of agricultural practices. Interact with local farmers and business owners. Explore a diverse selection of farms, crop production, environmental research centers, and cultural heritage sites. *This program alternates locations each year.* **Credit:** ALS 494 or AGI 194.

## **MEXICO** | Sustainability in Emerging Countries (Summer)

Experience and understand the diversity of food production in Oaxaca, Mexico, while interacting with local scientists, farmers and students. **Credit:** HS 495

## **POLAND** | Biotechnology & Agriculture (Summer)

Learn about agriculture, animal science, and biotechnology through excursions and site visits. Excursions and field trips to sites and cities in Poland are included. **Credit:** Up to 6 credits, including ALS 495, BIT 466 and/or BCH 220.
