WHY SHOULD YOU STUDY ABROAD?

- Fulfill major, minor and GEP requirements that count toward your degree.
- Distinguish yourself in the workplace with **global competencies**.
- Build independence, problem-solving skills and perspective to face the grand challenges of society.
- Explore a new language or culture with a diverse group of people.

PLAN AHEAD

- Well prepared student typically start a year in advance.
- Attend the Study Abroad Fair, typically held in late September.
- Make an appointment to discuss plans with your academic advisor.

HOW TO APPLY

- Attend a general advising session hosted by the Study Abroad Office.
- Visit studyabroad.ncsu.edu for information and resources on:
 - Available Programs
 - Transfer Credit Database
 - Scholarships & Financial Aid
 - International Internship Opportunities

“My study abroad and service learning experience in Guatemala revealed distinct differences between international health issues and policies, and those we face in the US. The experience rekindled my desire for learning as I look to understand and promote healthy living cross-culturally.”

Allison Hofmann, Nutrition Science
Guatemala: Social Work (Summer)

FEATURED SEMESTER PROGRAMS

The following programs have been identified as best-fit programs for **Nutrition** students; however, students are welcome to participate in other programs.

AUSTRALIA | University of Adelaide

Courses ranging from food science, horticultural science, agricultural business, plant science, viticultural science and oenology, and wine marketing.

DENMARK | University of Copenhagen

With this focused exchange, students have the opportunity to take classes in animal health and animal sciences through the Science and Life Science Faculties.

GHANA | University of Ghana - ISEP

English-taught courses in the Department of Nutrition and Food Science, including: history of nutrition, food laws and regulations, food and nutrition policy, and nutrients and their metabolism.

IRELAND | University College Cork

Through the School of Food and Nutritional Science, UCC offers courses in food chemistry, food toxicology, nutrition in growth, and a wealth of GEP classes.

ITALY | Lorenzo de Medici - Tuscania campus

Situated in the heart of Tuscany, students can choose from over 400 courses, all of which are taught in English, except for Italian language classes.

NEW ZEALAND | Massey University - ISEP

Offering classes in food technology and nutritional sciences at New Zealand's largest education and research institution.

TAIWAN | National Taiwan University

National Taiwan University (NTU) is the flagship university of Taiwan. They offer a variety of courses in English including food sciences and GEPS.

UNITED KINGDOM | Harper Adams University

Located in Newport, Shropshire, England, Harper Adams University offers the ability to further ones degree while experiencing the beauty the UK has to offer.

UNITED KINGDOM | University of Leeds

One of England's top universities, courses in food processing, functional foods, nutrition and healthcare, nutrition in the prevention and treatment of disease, and GEP's.

UNITED KINGDOM | University of Surrey

Offering bachelor degrees in veterinary biosciences and biosciences and just 35 minutes from London.
