**Meal Plan Registration**

- Start by selecting a plan
- There are unlimited plans, or you can purchase a plan based on how many meals you will consume per week, or per semester
- Review the options and talk to Orientation Leaders about what will work best for you
- You have until the last day in September to change your plan
Dining Hall Swipes

Just one card swipe at the dining halls and you can eat as much or as little as you like. Options include entrees, sides, soups, salads, cut fruit, ice cream and dessert.
Meal Credits

Meal Credits enable you to use one of your meals towards a purchase at one of the restaurants or cafes on campus.

Meal credits vary by location. If you stay under the rate, you won’t owe anything more. If you choose to spend more, make up the difference with Dining Dollars or another form of accepted payment.
Dining Dollars

Use Dining Dollars to:

- Buy extra meals or snacks if a meal has already been used during a meal period or if you run out of meal-plan meals
- Cover the difference if you spend more than the credit at a campus restaurant or cafe
- Make purchases at convenience stores and vending machines
